It allows for the most efficient and interesting use of space, create more overlapping programatic conditions and allows for more interaction. The focal point of activity is clear, and it activates the space most effectively.

Contribution 8 of 8 | 8 January, 2021

I like the split between the children's play areas and the court/multipurpose areas; feels like it's a place for folks of all ages

Contribution 7 of 8 | 5 January, 2021

The layout seems to use the space well and I love all the new playground features, accessibility and restrooms. A bit of a toss up between 1 and 2 for me. I would prefer to see a total revamp over minor improvements of plan 3 but I'll take what I can get.

Contribution 6 of 8 | 30 December, 2020

This concept makes the best use of the existing field space (that is largely unused, and there is other field space) and centralized all of the play spaces/spray park. The spray park seems largest in this option and that's a much-needed resource for kids in the community. In all concepts, the rain gardens and outdoor classroom are great features. Appreciate that this option has more robust picnic space.

Contribution 5 of 8 | 29 December, 2020

It's great to see more daily usable space favored over specialized space (ball fields) that can't be as widely used.

Contribution 4 of 8 | 19 December, 2020

I like the clear separation of the children's play area and the adult courts/multi-purpose space. I do prefer more picnic area like in Concept 2.

Contribution 3 of 8 | 16 December, 2020

Better play area for children. The larger playground would get more year round use than the baseball field.

Contribution 2 of 8 | 14 December, 2020

I think the multipurpose court space is important, and like the configuration of the different uses. I like the expansion of the playground area (as opposed to concept 3 which keeps things mostly the same), and of the two redesigns, I think concept 1 uses the space better and more efficiently.

I would love to see bicycle parking near the main area. Could also be used for strollers, wagons, etc.

Contribution 8 of 8 | 8 January, 2021

More picnic plaza! I saw a lot of people hanging out on the lawn and think having some outdoor tables would be great.

Contribution 7 of 8 | 6 January, 2021

There should be a large covered pavilion with picnic tables and grills so they park can still be used during inclement weather.

Contribution 6 of 8 | 5 January, 2021

Sensory activities/trail

Contribution 5 of 8 | 5 January, 2021

Local art installations similar to what is in the new Wightman playground/park area. Also, please make sure to make this a fully accessible space for all ages.

Contribution 4 of 8 | 5 January, 2021

Keeping the historical assets intact.

Contribution 3 of 8 | 4 January, 2021

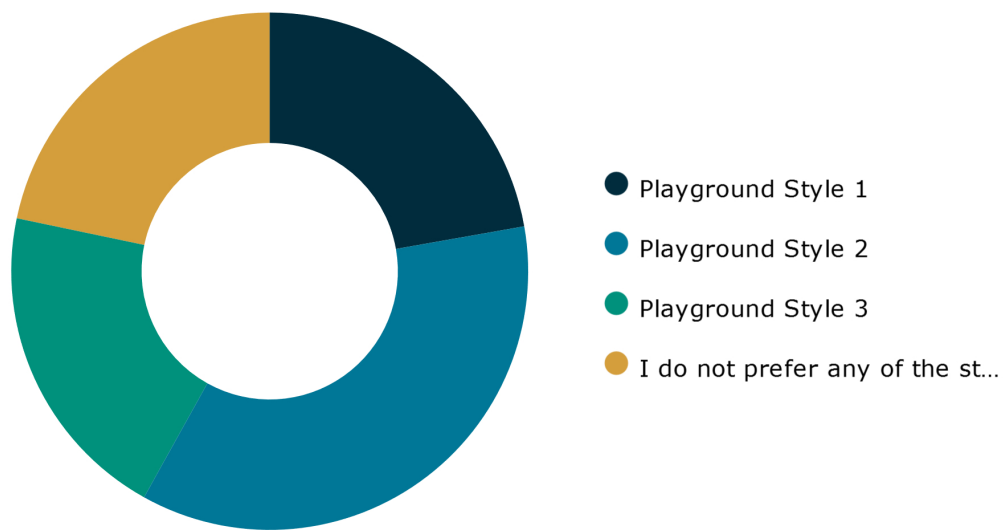

No - it all looks lovely. Thank you all for your hard work

Contribution 2 of 8 | 29 December, 2020

I'd like to see more emphasis on plants and trees. Arsenal has a wide variety of trees - it's really impressive!

Contribution 1 of 8 | 8 December, 2020

12. Of the Playground Styles shown in the Community Survey Document Library, please select your favorite style. Required

More modern feel, and possibly most interesting and accessible to a wide range of age users, even adults.

Contribution 8 of 8 | 5 January, 2021

The playground style 2 is unique.

Contribution 7 of 8 | 26 December, 2020

It seems very tactile, which is good for neurodivergent children.

Contribution 6 of 8 | 18 December, 2020

modern forms and colors.

Contribution 5 of 8 | 15 December, 2020

Seems like a good mix of contemporary and classic design.

Contribution 4 of 8 | 11 December, 2020

This was a tough decision as they all look amazing! However, I chose playground style 2 as I feel it appears to be the most "open" providing better supervision of children. I also feel that the equipment feels as if more collaboration can happen between children providing lessons on teamwork!

Contribution 3 of 8 | 11 December, 2020

I like how it is industrial and city-esque and not void of theme or too abstract like 1 and 3.

Contribution 2 of 8 | 9 December, 2020

I like that it offers more of an opportunity for people to see the park features through it and beyond it vs. the structures being very heavy with plastic "stuff".

All of these concepts are a massive improvement from the current state of the park. My husband and I are expecting our first child and are thrilled to see that this park is going to undergo a much needed renovation.

Contribution 8 of 8 | 7 January, 2021

Perhaps incorporating interactive flower gardens (butterfly, wild flowers, etc) would be educational and beautiful for the community.

Contribution 7 of 8 | 5 January, 2021

Save as many of the beautiful trees as you can. The shade in Arsenal is a boon in summer, and the colors of leaves were especially vivid this year. There's such a great variety, too!

Contribution 6 of 8 | 29 December, 2020

Thank you so much for soliciting feedback from the community. I'm sure whatever improvements are ultimately made to the park will be great and I look forward to enjoying a modernized Arsenal Park with my family.

Contribution 5 of 8 | 11 December, 2020

I love the ideas that would encourage usage of the park by the elementary and middle school. Thank you for your thoughtfulness regarding that in making these plans! I am a science teacher and would love to take my classes outside for hands-on, engaging science lessons!

Contribution 4 of 8 | 11 December, 2020

THANK YOU! From the bottom of my heart, I have watched Lawrenceville grow in amazing ways over the past 14 years. The heart of Lawrenceville has always been our ARSENAL students. Thank you for caring about them and their school.

Contribution 3 of 8 | 11 December, 2020

I am really excited about having a water feature and a proper bathroom!!

Contribution 2 of 8 | 7 December, 2020

Pavilion(s)! Lots of them. Less concrete around the play areas, more grass. Thanks!
